

# UI/UX Intern – Job Description (JD)

**Job Title:** UI/UX Intern

**Location:** Remote, Nigeria

**Team:** Product, Marketing & Experience Team

**Reports to:** Product Design Lead

**Type:** Internship (Startup Flexible)

## About Delovox

Delovox is a modern data intelligence and analytics company helping businesses turn raw data into strategic assets. We empower organizations to grow by delivering data-driven insights, automation, dashboards, and intelligent reporting solutions tailored to their unique needs.

We are building a team of smart, creative, and driven individuals who want hands-on experience and real growth within a fast-rising data startup.

## Role Overview

We are looking for a **UI/UX Intern** to support Delovox's product, marketing, and brand experience efforts. This role is ideal for a creative individual who understands user experience principles, has a good eye for design, and is confident using **Canva and basic design tools**.

You will work closely with the Product Design Lead, Project Manager, and Marketing Team to design user-friendly interfaces, marketing visuals, and brand assets.

## Key Responsibilities

- Assist in designing user interfaces, dashboards,

and simple prototypes.

- Create visual assets for marketing, social media, presentations, and internal use.
- Use Canva and other design tools to design, update, and manage brand templates.
- Ensure consistency of Delovox's brand across all digital and visual materials.
- Support quick design requests and collaborate with cross-functional teams.

## Ideal Candidate Profile

### ***Skills & Experience***

- Currently studying or recently graduated in UI/UX Design, Graphic Design, Product Design, or a related field.
- Basic understanding of UI/UX principles and user-centred design.
- Good visual design skills and attention to detail.
- Comfortable using Canva and basic design tools.
- Strong willingness to learn and grow in a startup environment.
- Good communication and collaboration skills.
- Ability to manage tasks and meet deadlines independently.

### **Tools Advantageous**

- Canva
- Figma
- Notion, Trello, or similar task management tools

### **Key Performance Indicators (KPIs)**

- Quality and consistency of design outputs
- Timely delivery of assigned design tasks
- Contribution to product and marketing visuals
- Adherence to brand guidelines
- Improvement in user experience and visual appeal

## **What We Offer**

- Hands-on learning experience in a fast-growing data startup
- Flexible remote working environment
- Real-world exposure to product, marketing, and brand design
- Opportunity to build a strong portfolio with real projects
- Mentorship and growth opportunities within the team
